NCL TO INSTITUTE FUEL SUPPLEMENT MIAMI – November 15, 2007 –

NCL Corporation announced today that it will begin assessing guests a fuel supplement in response to record high fuel prices. Effective on all new NCL and NCL America bookings made on or after December 1, 2007, the fuel supplement will be \$7 per person per day for the first and second guests in a stateroom and \$3 per person per day for any additional guests in the same stateroom. “With oil prices skyrocketing, the fuel supplement is a necessary step for us,” said Colin Veitch, NCL’s president and CEO.

NCL Corporation Ltd. is the holding company for various subsidiary companies involved in owning and operating the ships of Norwegian Cruise Line, NCL America and Orient Lines. NCL plans to build two new third generation Freestyle Cruising ships for delivery in 2010. NCL today has the youngest fleet in the industry, providing guests the opportunity to enjoy the flexibility of Freestyle Cruising on the newest, most contemporary ships at sea, and has recently added its latest new ship, the 2,400 passenger Norwegian Gem.
